

Sinclair Broadcasting is dangerously using its extensive powers granted by unchecked media consolidation to air Stolen Honor, a movie that is absolutely a piece of anti-Kerry propoganda where those interviewed lack a shred of credibility.

Sinclair is violating our laws, the laws that you are supposed to enforce, when it uses its control of the public airwaves for political propoganda. When a few large companies control the airwaves we only hear from what a few people want us to hear. This is censorship that is controled by a few people who can together control what we hear. You should not allow censorship in the US! Censorship is one of the 4 major components of fascism. Fascism is what you get when propoganda is used for the purposes of the combination of using terror, CENSORSHIP, nationalism, and racism. You in the FCC are allowing the country to go in the direction toward fascism when you allow people like Sinclair and FoxNEWS to air programs which falsely and uncontestedly promote the ideas of ubiquitous terror, censored news, nationalism to the point of prejudice, and racism to the point of treating arabs like second class human beings. The major issue of the moment is that Sinclair is abusing its power at the expense of democracy in an attempt to decide an election by paintings a war hero as a traitor.

This is a disgrace to our electoral system when yellow journalism is so powerful and unchecked that it has been allowed to shape public opinion. This a flaw in our democracy that needs to be mended. Thank you.
